Rationale for the rating.

The downgrade in the rating reflects a notable deterioration in asset quality and collection efficiency, driven by ongoing stress in the microfinance (MFI) segment. Profitability has weakened significantly, with PAT declining to Rs.52.07 Cr. in FY25 from Rs.173.57 Cr. in FY24, and a net loss of Rs.14.58 Cr. reported in Q1FY26. This decline is primarily attributed to elevated credit costs, which rose to ₹264.10 Cr. in FY25 and ₹66.52 Cr. in Q1FY26. Asset quality metrics have also deteriorated, with GNPA increasing to 3.45% in Q1FY26 from 2.91% in FY24, and the on-time portfolio dropping to 90.50% from 94.29%. Rising delinquencies and substantial write-offs (Rs.237.30 Cr. in FY25) further underscore the stress in the portfolio. Despite these challenges, the rating continues to factor in Arman Group's established operational presence, strong capitalization (CAR at 37.34%, Tier I at 36.59%), and improved leverage profile (gearing reduced to 1.41x in FY25 from 2.12x in FY24). The company has also maintained healthy Net Interest Margins, which stood at 15.11% in FY25 and improved to 15.49% in Q1FY26.

Going forward, the company's ability to restore profitability, strengthen asset quality, and maintain its capital structure will remain key rating sensitivities.

Analytical Approach

Extent of Consolidation

•Full Consolidation

Rationale for Consolidation or Parent / Group / Govt. Support

Acuité has consolidated the business and financial risk profiles of AFSL and NFL (Hereinafter referred to as 'Arman Group') for arriving at the rating. The consolidation is in view of common promoters and management, integrated businesses, shared brand name and significant operational and financial linkages between these entities.

Key Rating Drivers

Strength

Established track record of operations with experienced promoters and management.

AFSL has been engaged in the financing business since 1992 and has demonstrated a long track record of operations through various business cycles. Arman commenced its operations with asset backed finance lending in the state of Gujarat and has built a strong experience of 29 years in the industry. Following the RBI directive for creating a separate category of NBFC for lending to micro finance sector, the company was the first in India to obtain "NBFCMFI" license for its wholly owned subsidiary - Namra Finance Limited (NFL) on February 14, 2013. Accordingly, all the assets related to micro finance were transferred to Namra Finance Limited (NFL). In 2017, company began its MSME loan product segment. The group has geographical presence in the states of Gujarat, Madhya Pradesh, Uttar Pradesh, Maharashtra, Uttarakhand, Rajasthan, Haryana and Bihar with a network of 319 branches spread across 120 districts as on March 31, 2024. The company is promoted by Mr. Jayendra Patel, Vice Chairman and Managing Director, who has 35 years of senior managerial and board level experience in the finance sector. Mr. Patel is the founder member of Gujarat Finance Companies Association. He is supported by Mr. Aalok Patel, Joint Managing Director, who is also on the Board of the company and has more than 15 years of experience in the financial sector. Further, Mr. Alok Prasad is the present Chairman on the Board of AFSL, who is also on the Board of the company and is having 35 years of experience in regulatory, banking and financial services. He has been associated with MFIN as Founder Chief Executive Officer. The Board is well represented by nine directors with adequate and relevant experience in the corporate and finance domains. Acuité believes that the established presence of the promoters and management coupled with effective guidance from the directors on the board, will support the business risk profile of the company in the near to medium term.

Healthy Capitalization and Prudent Leverage

The company maintains a robust capital structure, with net worth improving to Rs.874.41 Cr. in FY25 and CAR at 37.34% (Tier I: 36.59%). Gearing has moderated to 1.41x in FY25 from 2.12x in FY24, reflecting prudent debt management. The strong capitalization provides a buffer against asset-side risks and supports future growth plans.

Strong Net Interest Margins and Revenue Base

Despite rising credit costs, the company has sustained healthy Net Interest Margins (NIM), which stood at 15.11% in FY25 and further improved to 15.49% in Q1FY26. Total income net of interest expense rose to Rs.490.68 Cr. in FY25 from Rs.396.06 Cr. in FY24, indicating stable core earnings and efficient interest spread management. AFSL has exhibited strong operational momentum, reflected in a year-on-year increase in disbursements—particularly within the Loan Against Property (LAP) portfolio. This strategic pivot toward greater coverage of the secured book underscores the company's focus on enhancing portfolio quality and risk-adjusted

growth.

Weakness

Declining profitability; increasing credit cost.

The company's profitability has weakened significantly in FY25, with PAT dropping to Rs.52.07 Cr. from Rs.173.57 Cr. in FY24. This decline is primarily driven by a sharp rise in credit costs, which surged to Rs.264.10 Cr. in FY25 from Rs.65.09 Cr. in FY24, and further to Rs.66.52 Cr. in Q1FY26. The impact of these provisions has resulted in a negative PBT of Rs.11.17 Cr. and a net loss of Rs.14.58 Cr. in Q1FY26, indicating pressure on earnings sustainability. Acuite expects the group to continue to benefit from a diversified funding mix and also believes that company's ability to contain and curb the credit costs will be a key monitorable.

Deteriorating asset quality and collection efficiency.

Asset quality has shown signs of stress, with GNPA increasing to 3.37% in FY25 from 2.91% in FY24, and further to 3.45% in Q1FY26. NNPA also rose to 0.55% in FY25 from 0.31% in FY24. The on-time portfolio declined to 90.50% in Q1FY26 from 94.29% in FY24, while delinquency in the 31–90 DPD bucket rose to 4.28% in FY25 from 1.78% in FY24. These trends reflect weakening collection efficiency and rising slippages.

Acuite believes that the ability of the company to profitably scale-up its operations while maintaining healthy asset quality will be key monitorable.

ESG Factors Relevant for Rating

Arman Financial Services Limited (AFSL) belongs to the NBFC sector which complements bank lending in India. Some of the material governance issues for the financial services sector are policies and practices with regard to business ethics, board diversity and independence, compensation structure for board and KMPs, role of the audit committee and shareholders' rights. On the social aspect, some of the critical issues for the sector are the contributions to financial inclusion and community development, responsible financing including environmentally friendly projects and policies around data privacy. The industry, by nature has a low exposure to environmental risks. AFSL focuses towards overcoming the financial inclusion gap through vehicle finance and microfinance in semi-rural and rural areas. The entity has corporate governance policies on whistle-blower programme and vigil mechanism. The NBFC outlines the policies related to diversity, sexual harassment, and ethical business practices in its code of conduct and also has a high transparency in terms of disclosures related to board and management compensation. AFSL's CSR policy focuses on development of marginalized communities and initiatives such as Hygiene Awareness programmes among rural women in Gujarat. As part of the 'green initiative', the company has switched to electronic mode to send annual reports or Notice of AGM to the shareholders and depository participants

Note on complexity levels of the rated instrument

In order to inform the investors about complexity of instruments, Acuité has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk.
