

Press Release

Pride Properties Private Limited

March 16, 2022

Rating Assigned

Product	Quantum (Rs. Cr)	Long Term Rating	Short Term Rating
Non-Convertible Debentures (NCD)	10.00	Provisional ACUITE B Stable Assigned	-
Total Outstanding Quantum (Rs. Cr)	10.00	-	-
Total Withdrawn Quantum (Rs. Cr)	0.00	-	-

Rating Rationale

Acuite has assigned the long-term rating of '**PROVISIONAL ACUITE B**' (read as **Provisional ACUITE B**) on the Rs.10.00 crore Non-Convertible Debentures (NCDs) of Pride Properties Private Limited (PPPL). The outlook is '**Stable**'.

The rating takes into account the locational advantage of commercial complex that is being developed in East Vile Parle Mumbai and the investment by the promoter on the same. However, the above rating is underpinned by weak financial risk profile of PPPL and uncertainty of credit risk profile of Mr. Jayesh Madhavji Parmar, on whose individual capacity, the project is being developed. The rating further takes into account criticality of achieving the projected cash flows in order to meet its debt obligation.

The rating on the Rs.10.0 crores NCDs is provisional and the final rating is subject to the following:

- 1) Receipt of final term sheet and confirmation from trustee regarding the compliance with all the terms and conditions.

About the Company

Pride Properties Private Ltd was incorporated on 01 December 1987 by Mr. Munish Mahajan & Amit Mahajan located at Okhla, New Delhi. The company was initially involved in construction of buildings till 2000. The company has in past developed 4 residential projects in Delhi & NCR. However, as on date, the company has not engaged in any business since then. During the FY22, the company has planned to invest in real-estate development, undertaken by an individual; Mr. Jayesh Madhavji Parmar, for which, the company has proposed to raise Non-Convertible debenture (NCD) of Rs.8.0 crores. The project involves construction of commercial complex in Vile Parle East, Mumbai. The complex comprises of 5 floors (including ground floor). The total estimated cost of the project is Rs. 40.0 crores, of which Rs.26.0 crores have already been incurred as on March 2022. Post the completion of project, the entire project is expected to be sold to High Net-worth Individuals.

Analytical Approach:

Acuite has considered standalone financial and business risk profile of Pride Properties Private Limited.

Key Rating Driver

Strengths

Locational Advantage of the project

Close to Chatrapati Shivaji International airport, Vile Parle is one of the sought-after locations in Mumbai due to its strategic central location with Andheri East in North and Santa Cruz in south. It is just 5 Km away from BKC. Some of the key areas in the neighbourhood include Airports Authority Colony, Bamanwada, Ekta Nagar, and Chakla. The locality has good connectivity with rest of the city via Western highway. Vile Parle East Station on Harbour line caters to the area. The Mumbai International Airport is located in the neighborhood. Sahar Road Metro Station connects the locality to Mumbai Metro Network on Line 3. The locality has prominent schools and colleges and hospitals. Besides, the local market of Vile Parle is well developed for daily needs of its residents. Further, it is also corporate hub and important offices such as Paytm, Religare Private Wealth, Asian Groups, Sun Pharma etc are located in that area. The location is also known to have top residential complexes with school, colleges, restaurants, hotels nearby.

Weaknesses

Weak financial risk profile of PPPL

The company has not been involved in any business activity as on date and hence, heavily relies on external funding for investment on the project. The tangible net worth of the company remains at Rs. 1.87 crores as on March 31, 2021, as compared to investment size of Rs.8.0 crores. The interest obligation on proposed NCD is due on March 2023. Albeit, the redemption of debenture entails long tenure of 7 years (March 2029), the company is expected to pre-redeem the same, out of sale proceeds of the project. Hence, timely completion of project and receipt of lease rentals would be a critical factor for meeting the interest obligation on NCD. The redemption of debenture is expected to be met through the sale proceeds from HNIs.

Uncertainty regarding credit profile of investee

The project is being undertaken by an individual; Mr. Jayesh Parmar. The entire project is being handled by him in his individual capacity. However, he has also been holding Directorial position with entities based out of Mumbai and Delhi. Nevertheless, the credit profile of the investee remains uncertain.

Project execution risk

The company has incurred total cost of Rs.26.0 crores out of estimated cost of Rs.40.0 crores. The project is expected to be completed by September 2022. Further, the requisite approval/clearance is in progress. Hence, there is an expected implementation risk of the project. The total funding tie-up (including proposed NCD) has been achieved to the extent of Rs.36.0 crore. The receipt of requisite approval and timely completion of undertaken project would be crucial from rating perspective.

ESG Factors Relevant for Rating

In real estate industry there is an inherent environmental risk of release of toxic greenhouse gases and waste disposal. Hence, availing necessary approvals would be important for implementation of the project. Any new regulatory constraint, could impede the progress of the project and cost escalation.

On the social front, occupational and workforce health & safety management are of primary importance to this industry given the nature of operations. The product quality and safety is of utmost significance. Further, project development in an inhabited locality, smooth execution of the project leading to minimal inconvenience to the residents of locality is an important factor. As construction of commercial complexes also generate employment in local communities and are susceptible to unionization of labor force, managing social welfare of

the local community is critical. As the project is being developed at an individual capacity, the ability to manage the labor force would be critical factor.

Rating Sensitivity

- >Timely completion of construction with tie up of lessees.
- >Ability to achieve the projected cash flow.
- >Any delay in construction of project, resulting in delay in inflow of lease rentals.
- >Any decline of receipt of sale proceeds

Material Covenants

None

Liquidity Position: Poor

The liquidity position of the company is poor as PPPL is not engaged in any business operations. Further, the company relies heavily on external funding for investment purpose. Hence, timely completion of project and receipt of lease rentals and sale proceeds to meet its debt obligation would be critical from rating perspective.

Outlook: Stable

Acuité believes that the outlook on PPPL will remain 'Stable' over the medium term on account of locational advantage of the project. The outlook may be revised to 'Positive' in case there is successful completion of project with lease tie-up with reputed clientele. Conversely, the outlook may be revised to 'Negative' in case of any delay in construction of project, thereby impacting cash flows of the company.

Other Factors affecting Rating

Not Applicable as the company does not have any major business operations. Further, the net loss is very negligible

Key Financials

PBDIT/Interest	Times	(22.49)	(4.75)

Status of Non-cooperation with previous CRA (If Applicable)

Not Applicable

Supplementary disclosures for Provisional Ratings

Risks associated with the provisional nature of the credit rating

1. Absence of an entity to take appropriate measures to protect the interest of the debenture holders in case of any breach of the trust deed or law.
2. In case there are material changes in the terms of the transaction after the initial assignment of the provisional rating and post the completion of the issuance (corresponding to the part that has been issued) Acuite will withdraw the existing provisional rating and concurrently, assign a fresh final rating in the same press release, basis the revised terms of the transaction.

Rating that would have been assigned in absence of the pending steps/ documentation

The rating would be equated to the standalone rating of the entity: ACUITE B- / Stable

Timeline for conversion to Final Rating for a debt instrument proposed to be issued

The provisional rating shall be converted into a final rating within 90 days from the date of issuance of the proposed debt instrument. Under no circumstance shall the provisional rating continue upon the expiry of 180 days from the date of issuance of the proposed debt instrument.
