Key Rating Drivers

Strengths

Experienced Management

The group is managed by Mr. Hemant Goyal who has more than two decades of experience in steel industry through concerns such as Narsingh Ispat Private Limited. The group has a strong customer base which includes medium size steel companies such as Maithan Steel and Power Limited, Shyam Steel Industries Limited, Balmukund Sponge & Iron Private Limited (rated at Acuité BBB+/Stable/A2). The scale of operation of the group has improved as revenue stood at Rs 426.19 Cr in FY21 (Provisional) as against Rs 372.23 Cr in FY20. The improvement is driven by rise in average realization of pig iron. Acuité believes that the group will benefit from the experienced management and long term relationships with customers.

Comfortable financial risk profile

The comfortable financial risk profile of the group is marked by its moderate net worth, modest gearing ratio and strong debt protection metrics. The net worth stood at Rs.55.96 Cr as on 31st March 2021 (Provisional) as compared to Rs 42.80 Cr in the previous year. The gearing of the group stood at 1.44 times as on 31st March 2021 (Provisional) as against 1.89 times as on 31st March, 2020. The total debt of Rs. 80.37 Cr in FY2021 consists of Long term borrowing of Rs 52.78 Cr, Short term borrowing of 17.95 Cr and Unsecured loan of Rs 9.64 Cr. The improvement in coverage ratios is on account of rise in absolute EBITDA backed by increase in turnover level. The Net Cash accruals to Total Debt (NCA/TD) stood at 0.26 times in FY2021 (Provisional) as compared to 0.18 times in the previous year. Acuité believes the financial risk profile to remain comfortable over the

Weaknesses

Cyclical nature of the industry

The group performance remains vulnerable to cyclical in the steel sector as demand for steel depends on performance of end user segments such as construction and real estate. Indian steel sector is highly competitive due to presence of large number of players. The operating margin of the group is exposed to fluctuations in the prices of raw materials (coal and iron ore) as well as realization from finished goods.
