April 08, 2025
Rating Downgraded

Product	Quantum (Rs. Cr)	Long Term Rating	Short Term Rating
Bank Loan Ratings	5.00	ACUITE C Downgraded	-
Total Outstanding Quantum (Rs. Cr)	5.00	-	-
Total Withdrawn Quantum (Rs. Cr)	0.00	-	-

Rating Rationale

Acuite has downgraded its long-term rating to '**ACUITE C**' (read as **ACUITE C**) from '**ACUITE BB-**' (read as **ACUITE double B minus**) on Rs.5.00 Cr. bank facilities of M O Infra.

Rationale for Downgrade

Acuite has taken a consolidated approach for M O Infra along with its other group entities, Sayyed Akhtar Ali, SMO Ferro Alloys Private Limited, VR Construction, Gharib Nawaz Infra, Owais Ali Overseas and SA Infrastructure. The rating downgrade is on account of delays in debt-servicing in recent months reflecting in the credit bureau information report of its group entity, SMO Ferro Alloys Private Limited.

About the Company

Established in 2018, MO Infra (MOI) undertakes trading of silico manganese in Madhya Pradesh. The firm is headed by Mr. Saiyyed Akhtar Ali

Analytical Approach

Extent of Consolidation

- Full Consolidation

Rationale for Consolidation or Parent / Group / Govt. Support

Acuité has considered the consolidated business and financial risk profiles of Saiyyed Akhtar Ali (SAA), V R Construction (VRC), SMO Ferro Alloys Private Limited (SMO), Gharib Nawaz Infra (GNI), Owais Ali Overseas (OAO), SA Infrastructure (SAI) and M O Infra (MOI), together referred to as the SAA group. The consolidation is in view of common management, operational & financial linkages between the entities and similar line of business.

Key Rating Drivers

Strengths

Long track record and diversified business operations

The group has established a long track record of operations of around three decades. SAA group has started its business in 1995 and later formed a partnership firm in 2003 as M/s Saiyyed Aktar Ali. The business is managed by Mr. Saiyyed Aktar Ali, along with his three brothers and sons. The group has a diversified stream of operations with presence in civil construction which contributes around 20 per cent of the total revenues, manufacturing business around 40 per cent and trading of ferro alloys contributes nearly 40 per cent. The diversified revenue streams mitigate the impact of cyclicity and competitive pressures in any particular business segment. In addition, the group has 4 running leased quarry of stones in Madhya Pradesh. The group also has an oxygen manufacturing plant required for the manufacturing of ferro alloys where excess production is sold in the open market. Acuité derives comfort from the group's diversified business operations and the long-standing presence in the industry.

Weaknesses

Constitution as a partnership/proprietorship entity

SAA group comprising of total 2 partnership and 4 proprietorship entity, is exposed to inherent risk of the partners' capital being withdrawn at time of personal contingency and entity being dissolved upon the death/insolvency of the partner. Furthermore, such entities have restricted access to external borrowing.

Rating Sensitivities

- Regular servicing of debt obligations

Liquidity position: Poor

The liquidity position of the group is marked poor as there have been delays in debt servicing by one of the group entity in recent months.

Outlook: Not applicable

Note on complexity levels of the rated instrument

In order to inform the investors about complexity of instruments, Acuité has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk. For more details, please refer Rating Criteria "Complexity Level Of Financial Instruments" on www.acuite.in.
