Having two NBFCs was considered to be more tax efficient by the depositors also. With no such incentives available now once the deposit taking facility was discontinued in 2016, the two entities Amrit Hire Purchase and Malwa Ludhiana Motor Finance decide to merge themselves into one big entity forming Amrit Malwa Capital Limited. Analytical Approach

Acuité has considered the standalone business and financial risk profile of AMCL for the Rs. 25.00 Cr. NCD facilities, the rating of AMCL (ACUITE BBB-/ Stable), and has further factored in the credit enhancement arising from the structure for the Rs. 7.00 Cr. Bank Loan Facilities. The suffix (CE) indicates credit enhancement arising from the PCE in the form of unconditional, irrevocable, payable on demand guarantee covering 15% of the initial principal value of the facility amount. The strength of the underlying structure and continued adherence to the same is central to the rating. Accounting for the Partial Credit Enhancement, the agency has enhanced the rating of the facility to ACUITE BBB+ (CE)/ Stable. The Credit Enhancement (CE) in the rating is solely for the rated issue and its terms and structure.

The notched up rating of the loan facility incorporates the PCE in the form of guarantee by Northern Arc Capital Limited ("Northern Arc"), acting as the Credit Enhancer/ Guarantor.

Key Rating Drivers

Strength

Strength of underlying structure

The Credit Enhancer shall provide PCE, favouring AMCL in the form of an unconditional, irrevocable guarantee that covers 15% to the extent of Guarantee Cap guaranteeing the repayment of principal and payment of interest amounts in relation to the facility. If due to

the amortisation of the facility, the credit enhancement % becomes greater than 25% of the aggregate outstanding principal of the facility, the Guarantee Cap shall be reduced to 25% of the aggregate outstanding principal of the facility (Revised Guarantee Cap).

Borrower shall make payments of interest and principal amounts due and payable under the Facility Agreement into the Collection and Payment Account, opened and maintained by the Collection and Payment Agent by 4 PM IST, 5 (five) Business Days prior to due date (i.e., T-5 Business Days). In case of non-payment by Borrower as stipulated above, Collection and Payment Agent shall on the same day, i.e., on the T-5 Business Day invoke the guarantees extended by the Guarantors and require the Guarantors to pay such amounts by 4 PM IST, 4 (four) Business Days prior to due date (i.e., T-4 Business Days) and Guarantors shall be jointly and severally liable to make such payment within the said timeline.

In case of non-payment by the Borrower and the Guarantors as stipulated above, the Collection and Payment Agent shall on T-3 Business Days invoke the PCE and send a notice of 2 (Two) Business Day to the Credit Enhancer to make payments. Credit Enhancer shall make payment on T-1 Business Day (i.e. one day prior to the interest or principal due date) into the Collection and Payment Account.

The facility has security in the form of exclusive first charge on identified book debts and receivables with 110% margin in favour of the lender.

The security cover will be met from the date of disbursement of the facility. In case of AMCL senior secured long term rating (as per Acuité view) downgrade to below BBB-the Borrower shall transfer the collections from the Hypothecated Property to the Collection and Payment Account on a weekly basis and such collections would be applied by the Collection and Payment Agent towards repayment of principal and interest due and payable in relation to the Facility and then towards accelerated payment of principal on the Facility

Acuité believes that the structure provides for adequate covenants to safeguard the interest of the lender. The lender has enough buffers available to initiate corrective action and mitigate the risks arising out of non-adherence to the terms and conditions.

Weakness

Moderate Capitalisation Level

AMCL's portfolio is highly concentrated in Punjab with ~57% of the portfolio originating from there followed by ~32% from Rajasthan. It makes AMCL vulnerable to policy changes and/or any other changes in the region affecting the business.

Acuité believes that improving the capitalization levels and expanding the business while maintaining the growth in earning profile will be crucial.
