Rating Rationale

Acuite has downgraded its long-term rating from Acuite BBB-(Acuite triple B minus) to Acuite BB+(Acuite double B plus) and short-term rating of Acuite A3(read as Acuite A three) to Acuite A4+(Acuite A four plus) on the Rs.100.00 Cr. bank facilities of Yazdani Steel and Power Limited(YSPL). The rating is now being flagged as "Issuer Not Cooperating" and downgraded on account of information risk.

About the Company

Yazdani Steel & Power Limited (YSPL) was originally incorporated as Dinabandhu Steel & Power Limited in 2003. The company was taken over by Yazdani Group in 2011, subsequent to which the company was renamed as YSPL. The company had set up an integrated steel plant along with captive power generation facilities in Odisha with a capacity of 60,000 MTPA of Sponge Iron, 72,000 MTPA of Billets, 50,000 MTPA of TMT and 10 MW of captive power plant. Currently, the TMT capacity has been leased out. Additionally, recently YSPL has been granted a mining Lease for Kolmong Iron & Manganese Block and a mining lease of Bankhui coal block. The extraction of Manganese ore started from January, 2022 and the extraction of Iron ore started from August 2022.

Non-cooperation by the issuer/borrower

Acuité has been requesting for data, information and undertakings from the rated entity for conducting surveillance & review of the rating. However, the issuer/borrower failed to submit such information before the due date. Acuité believes that information risk is a critical component in such ratings, and noncooperation by the issuer along with unwillingness to provide information could be a sign of potential deterioration in its overall credit quality. This rating is, therefore, being flagged as "Issuer not-cooperating", in line with prevailing SEBI regulations and Acuité's policies.

Limitation regarding information availability

The rating is based on information available from sources other than the issuer/borrower (in the absence of information provided by the issuer/borrower). Acuité endeavored to gather information about the entity/industry from the public domain. Therefore, Acuité cautions lenders and investors regarding the use of such information, on which the indicative credit rating is based.

Note on Complexity Levels of the Rated Instrument

In order to inform the investors about complexity of instruments, Acuité has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk. For more details, please refer Rating Criteria "Complexity Level Of Financial Instruments" on www.acuite.in.
