

Press Release

Jodhpur Vidyut Vitran Nigam Limited

January 20, 2023

Rating Assigned

Product	Quantum (Rs. Cr)	Long Term Rating	Short Term Rating
Bank Loan Ratings	1477.25	ACUITE BBB+ Stable Assigned	-
Bank Loan Ratings	649.17	-	ACUITE A2 Assigned
Total Outstanding Quantum (Rs. Cr)	2126.42	-	-
Total Withdrawn Quantum (Rs. Cr)	0.00	-	-

Rating Rationale

Acuite has assigned its long term rating of **ACUITE BBB+ (read as ACUITE triple B plus)** and its short term rating of **ACUITE A2 (read as ACUITE A two)** to the Rs 2126.42 Cr bank facilities of Jodhpur Vidyut Vitran Nigam Limited (JDVVNL). The outlook is 'Stable'.

Rationale for the rating

The rating assigned factors the stable revenue growth, sustained improvement in the AT&C and T&D losses along with improvement in the collection efficiency in the last three years ended 2022. The AT&C losses and T&D losses stood at around 21.88% and 27.24% in FY2022 against 23.02% and 26.91% in FY2021. Further, the rating also factors in the support received from the State Government of Rajasthan (GoR) in the form of subsidies, grants and government guarantee backed borrowings. Also, the rating draws comfort from JDVVNL's diverse consumer mix. However, the rating is constrained on account of regulated nature of business, along with weak financial risk profile marked by negative net worth, and modest debt protection matrices given the high debt levels of the company.

About Company

Incorporated in the year 2000, Jodhpur Vidyut Vitran Nigam Limited. (JDVVNL) is a state power distribution company of Rajasthan State Electricity Board (RSEB). As per the Rajasthan Power Sector Reforms Act, 1999 of GoR, the erstwhile Rajasthan State Electricity Board (RSEB) was unbundled into a generation Company, a transmission Company and three distribution companies (Discoms) w.e.f. July 19, 2000. Rajasthan Rajya Vidyut Utpadan Nigam Limited (RVUNL) was incorporated as the sole generation company, Rajasthan Rajya Vidyut Prasaran Nigam Limited (RVPNL) was incorporated as the sole transmission company & three Discoms were incorporated in the form of Ajmer Vidyut Vitran Nigam Limited. (AVVNL), Jaipur Vidyut Vitran Nigam Limited. (JVVNL) and Jodhpur Vidyut Vitran Nigam Limited (JDVVNL).

JDVVNL's area of operations covers 10 districts of Rajasthan, namely Jodhpur, Jaisalmer, Jalore, Sirohi, Pali, Barmer, Bikaner, Churu, Ganganagar and Hanumangarh. The company has its registered office located in Jodhpur. The current directors of the company are Ms Aparna Arora, Mr Ashutosh Pednekar, Mr Anil Kumar Gupta, Mr Pranab Kumar Sinha, Mr Bhaskar Sawant, Mr Naresh Kumar Thakral, Ms Kirti Kachhawaha, Mr Pramod Tak and Mr Harsh

Baweja.

Standalone (Unsupported) Rating

Standalone/Unsupported Rating ACUITE BB-/Stable/ ACUITE A4

Analytical Approach

Extent of Consolidation

- Full Consolidation

Rationale for Consolidation or Parent / Group / Govt. Support

Acuité has considered the standalone business and financial risk profile of Jodpur Vidhyut Vitran Nigam Limited (JDVVNL). Further, Acuité has also factored in the inherent support extended from the state government of Rajasthan.

Key Rating Drivers

Strengths

Strategically important role of JDVVNL for the state of Rajasthan & support extended by the GoR

JDVVNL came into existence in 2000 and caters the power requirements of around 10 districts of the state including Jodhpur, Pali, Jaisalmer etc to name a few. It is a strategically important entity and forms the backbone of the power sector infrastructure for Rajasthan with area of operation of around 1.82 lakh sq. km. The status of the company as a 100 per cent government of Rajasthan (GoR) owned entity provides it adequate financial flexibility. JDVVNL's credit profile is also supported by its access to funds at low cost and its ability to mobilise financial resources from several financial institutions and multilateral development institutions. The rating also factors in the ongoing support extended by GoR to JDVVNL in the form of regular infusion of funds in the form of equity and unsecured loans and guarantees extended by the state government. During FY2022, there was an equity infusion of Rs. 429.09 Cr. made against share application money pending allotment Rs. 219.37 Cr, interest free loan converted into equity by GoR of Rs.67.40 Cr. and balance Rs. 151.97 Cr infused as equity capital by GoR. Also, Rajasthan is India's leading industrial state with gross state domestic product (GSDP) growing at 11.60 per cent in 2022-23 (est.). GoR's revenue deficit and fiscal deficit has reduced in FY2022 as against FY2021, and is expected to further reduce as per the budgeted estimates (BE) of FY2023, mainly due to its higher revenue receipts than revenue expenditure. Further, well established regulatory processes in Rajasthan such as presence of multi-year tariff regulations and grants sanctioned by the GoR has strengthened the operations of JDVVNL.

Acuité believes that JDVVNL, being a fully owned undertaking of GoR, shall continue to benefit from the financial, operational and management support of GoR from time to time. Any event that impinges GoR's overall credit profile shall remain a key rating sensitivity.

Sustainable improvement in the AT&C losses and T&D losses

JDVVNL has experienced sustained improvement in the Transmission and Distribution Losses [T&D] and Aggregate Technical and Commercial Losses [AT&C] over a period of last 10 years accrued to the implementation of multiple initiatives, capex to improve transmission lines, installing substations, among others. Further, it has also recorded significant improvement in its collection efficiency which stood around 100% since Q2FY2022. Further the company has entered into Distribution & Franchisee Agreement in 2017 with Bikaner Electricity Supply Limited, fully owned subsidiary of the Calcutta Electric Supply Corporation (CESC) for a period of 20 years. This has helped in reduction of AT&C losses in the DF area from 16.82% in FY2021 to 15.62% in FY2022.

Weaknesses

Modest financial risk profile

The financial risk profile remains modest marked by negative net worth, low gearing, and deteriorating coverage indicators. The net worth of the company stood negative at Rs. (16,771.04) Cr as on March 31, 2022 as compared to Rs. (15,967.79) Cr as on March 31, 2021. The negative net worth is primarily due to losses incurred in the earlier and current year. The

total debt of the company stood at Rs. 23,071.68 Cr. as on March 31, 2022 against Rs. 18,191.54 Cr. as on March 31, 2021. The gearing stood relatively high at (1.38) times as on March 31, 2022 as against (1.14) times as on March 31, 2021. Further, it is a highly capital-intensive nature of business where, in order to maintain operational efficiencies, the company has to incur regular capital expenditure. In addition, debt protection metrics stood modest with interest coverage ratio (ICR) and debt service coverage ratio (DSCR) at 0.86 times and 0.56 times, in FY2022 as compared to 0.74 times and 0.56 times, in FY2021 respectively. Though the company's DSCR has been weak in the past 2 years ended FY2022, Acuité takes a note that under the Additional Borrowing Limit of 0.50% of Gross State Domestic Product (GSDP) scheme, State Government of Rajasthan (GoR) has agreed to take over the future losses for next five years of the Discoms in a phased manner.

Regulated nature of operations

The revenues are influenced by the regulatory framework governing the power sector. Revenues of players such as JDVVNL are determined by Rajasthan Electricity Regulatory Commission (RERC) through revision in tariff. Any significant delays in tariff approvals or a reduction in return on equity or a tightening of the RERC norms could result in lower operating cash flows.

Acuité believes that any significant change in the regulatory environment will impinge on the credit profile of the company.

ESG Factors Relevant for Rating

Not Applicable

Rating Sensitivities

- Credit profile of GoR.
- Improvement in overall operating efficiency with reduced AT&C and T&D losses
- Improvement in the overall financial risk and liquidity profile
- Dynamics in the regulatory environment.
- Change in shareholding and support from GoR.

Material Covenants

None

Liquidity Position Adequate

JDVVNL net cash accruals stood negative due to losses at PAT level. However, the repayment obligations have been funded from support in the form of grants from GoR. Further, under the Additional Borrowing Limit of 0.50% of Gross State Domestic Product (GSDP) scheme, State Government (GoR) has agreed to take over the future five year losses of the Discom in a phased manner, and as per guidelines, GoR has taken over and in lieu of that released a sum of Rs. 865.84 crore to JDVVNL during F.Y 2021-22 (50% of losses of FY 2020-21.) Furthermore, the liquidity position is also supported of Rs. 429.09 Cr. made against share application money pending allotment Rs. 219.37 Cr, interest free loan converted into equity by GoR of Rs.67.40 Cr. and balance Rs. 151.97 Cr infused as equity capital by GoR during FY2022. in order to come out of the unprecedented COVID-19 crisis, the Govt. of India announced special economic package under 'Atmanirbhar Bharat' which includes liquidity infusion for Discoms by Power Finance Corporation (PFC) & Rural Electrification Corporation Limited (REC) for a period of 10 years. The company's repayment obligation in the FY 2022-23 and going forward obligations will be repaid by way of newly availed term loans from REC & PFC and working capital loans which are backed by government guarantee and remaining by way of grants from GoR. JDVVNL due to its strategic importance to GoR has been able to access various funding sources in the past to tide over the short-term liquidity mismatch. The unencumbered cash and bank balances stood at Rs. 318.20 Cr as on March 31, 2022. Further, Acuité receives comfort from the fact that JDVVNL being a GoR entity warrants adequate financial support from GoR, time to time, to support the mismatches.

Outlook: Stable

Acuité believes that the JDVVNL will maintain 'Stable' outlook over the medium term from its strategic importance to the GoR, experienced management and strong parentage. The outlook may be revised to 'Positive' if the company successfully ramps up its operation and registers growth in revenues while improving its profitability and AT&C and T&D losses. Conversely, the outlook may be revised to 'Negative' in case of less than expected growth in the revenues or increased AT&C and T&D losses deteriorating the operating profile.

Note on Complexity Levels of the Rated Instrument

In order to inform the investors about complexity of instruments, Acuité has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk. For more details, please refer Rating Criteria "Complexity Level Of Financial Instruments" on www.acuite.in
