

Press Release
SATIN FINSERV LIMITED - NIMBUS 2023 SBL WENGER
June 13, 2025
Rating Reaffirmed

Product	Quantum (Rs. Cr)	Long Term Rating	Short Term Rating
Pass Through Certificates (PTCs)	0.85	ACUITE A- SO Reaffirmed	-
Total Outstanding Quantum (Rs. Cr)	0.85	-	-
Total Withdrawn Quantum (Rs. Cr)	0.00	-	-

Rating Rationale

Acuite has reaffirmed the long-term rating '**ACUITE A-(SO)**' (read as **ACUITE A minus (Structured Obligation)**) to the Pass Through Certificates (PTCs) of Rs. 0.85 Cr. issued by NIMBUS 2023 SBL WENGER (The Trust) under a securitisation transaction originated by SATIN FINSERV LIMITED (The Originator). The PTCs are backed by a pool of Secured MSME loans.

The rating factors in the timely payment of interest on monthly payment dates and ultimate payment of principal in accordance with transaction documentation. The transaction is structured at par.

The rating is based on the strength of cash flows from the selected pool of contracts and the credit enhancement available in the form of

- i. Cash collateral of Rs 0.40 Cr.
- ii. Subordinated Equity Tranche of Rs. 1.00 Cr.
- iii. Excess Interest Spread (EIS) of Rs 0.21 Cr.

The PTCs have been amortised to Rs. 0.85 Cr. after the May '25 payout. There has been no utilisation of credit enhancement in the transaction, thus signalling healthy repayment in the transaction.

About the Originator

Incorporated in 2018, SFL is a 100 percent subsidiary of Satin Creditcare Network Limited (SCNL), the flagship company of Satin group. SFL obtained its license from RBI in 2019. SFL is engaged in the business of providing various financial services to entrepreneurs, MSMEs and individual businesses, as well as ending to other MFI companies. SFL offers products in the retail segment, with ticket size upto Rs. 3.5 Lakh and wholesale segment, with ticket size up to Rs. 5 Cr. The company will be focusing on the retail segment for the near future. The present directors of the company are Mr. Harvinder Pal Singh, Mr. Anil Kumar Kalra, Mr. Sundeep Kumar Mehta and, Ms. Jyoti Ahluwalia.

Standalone Rating of the Originator ((if rated by Acuite)

No Outstanding rating of the originator from Acuite

Assessment of the Pool

The underlying pool in the current Pass-Through Certificate (PTC) transaction comprises of secured MSME loans extended towards 539 individual borrowers. With an average ticket size of Rs. 1.85 lakhs, minimum ticket size of Rs. 31,300 and maximum of Rs. 5.2 lakhs. Current average outstanding per borrower stands at Rs. 1.49 lakhs. The weighted average original tenure for pool is of 43.65 months (minimum 36 months & maximum 60 months). The pool has weighted average seasoning of 11.63 months (minimum 7 months seasoning and maximum of 16 months seasoning). None of the loans in the pool had availed moratorium. All the customers in the selected pool are CURRENT as of the cut-off date. None of the customers in the pool have gone into the non-current bucket since origination.

Geographical constitution: 41.30% of these borrowers are concentrated in Haryana followed by 20.31% in Punjab and 16.44% in Gujarat. The top 10 borrowers of pool constitute 3.5% of the pool principal O/s.

Currently, the PTC has been amortised to Rs. 0.85 Cr. after the May '25 payout. There has been no utilisation of

credit enhancement in the transaction, thus signalling healthy repayment in the transaction.

Transaction Structure

The rating addresses the timely payment of interest on monthly payment dates and the ultimate payment of

principal by the final maturity date, in accordance with the transaction documentation. The transaction is structured at par.

Brief Methodology

Parameters considered are seasoning of the pool, pool vs portfolio, portfolio cuts, amortisation of the pool, internal cash flow modeling, pool characteristics, static pool, dynamic DPDs to assign provisional rating.

Legal Assessment

The final rating is assigned based on the fulfilment of the structure, terms and covenants detailed in the executed trust deed, servicing agreement, legal opinion, accounts agreement, assignment agreement and other documents relevant to the transaction.

Key Risks

Counter Party Risks

The pool has average ticket size of Rs. 1.85 lakhs, minimum ticket size of Rs. 31,300. and maximum of Rs. 5.2 lakhs. Considering the vulnerable credit profile of the borrowers, the risk of delinquencies/defaults are elevated. These risks of delinquencies are partly mitigated, considering the efficacy of the originator's origination and monitoring procedures.

Concentration Risks

Since the pool is considerably granular, i.e. underlying assets in the pool are in nature of secured business loans to 539 borrowers, hence the risk is moderately mitigated. However, there is considerable geographical concentration in the pool, since 41.30% of these borrowers are concentrated in Haryana followed by 20.31% in Punjab and 16.44% in Gujarat, which is partially mitigated as the pool is spread across various branches. The top 10 borrowers of pool constitute 3.5% of the pool principal O/s

Servicing Risks

There is limited track record of servicing PTCs, since this one of the initial PTC transactions for the originator. Also, the vintage of the originator in this portfolio is low. Therefore, the servicing risk for the transaction remains high.

Regulatory Risks

In the event of a regulatory stipulation impacting the bankruptcy remoteness of the structure, the payouts to the PTC holders may be impacted.

Prepayment Risks

The pool is subject to prepayment risks since rate of interest is significantly high and borrowers may be inclined to shift to low cost options (based on availability). Prepayment risks are partially mitigated by prepayment penalty levied by the company for pre-closures. In case of significant prepayments, the PTC holders will be exposed to interest rate risks, since the cash flows from prepayment will have to be deployed at lower interest rates.

Commingling Risk

The transaction is subject to commingling risk since there is a time gap between last collection date and transfer to payout account.

Credit Enhancements (CE)

The rating is based on the strength of cash flows from the selected pool of contracts and the credit enhancement available in the form of

- i. Cash collateral of Rs 0.40 Cr.
- ii. Subordinated Equity tranche of Rs. 1.00 Cr.
- iii. Excess Interest Spread (EIS) of Rs. 0.21 Cr.

Rating Sensitivity

- Credit quality of the underlying pool
- Availability of credit enhancement for PTC payouts
- Adherence to terms and conditions, as stipulated in the Transaction Documents
- Credit profile of the originator

All Covenants

Receivables comprising the Receivables shall be identified on the basis of criteria specified below:

- Minimum Holding Period (MHP) of the Receivables should meet the criteria set under the Securitization Guidelines;
- Loans are existing at the time of selection, and have not been terminated or prepaid;

- Compliance with "know your customer" norms specified by the RBI;
- Loans are not overdue;
- The Loans should not have been rescheduled or restructured by the Seller up to the Cut-off Date save and except for moratorium availed by certain Obligors from March 2020 to August 2020 pursuant to the RBI notification no. RBI/2019-20/244 dated May 23, 2020 read with RBI notification no. RBI/2019-20/186 dated March 27, 2020 and RBI Notification dated April 17, 2020 Compliance with "know your customer" norms specified by the RBI.

All Assumptions

Acuité has arrived at a base case delinquency estimate of 4.0% – 5.0% in respect of the loan assets being securitised. Acuite has further applied appropriate stress factors to the base loss figures to arrive at the final loss estimates and consequently the extent of credit enhancement required. The final loss estimates also consider the intrinsic risk of the particular asset class, the borrower strata, economic risks and the demonstrated collection efficiency over the past few months. Acuité has also considered the track record of operations of the originator and certain pool parameters while arriving at the final loss estimate

Liquidity Position

Adequate

The liquidity in the transaction is adequate. The credit enhancement available in the form of

- Cash collateral of Rs 0.40 Cr.
- Subordinated Equity tranche of Rs. 1.00 Cr.
- Excess Interest Spread (EIS) of Rs. 0.21 Cr.

Note on complexity levels of the rated instrument

In order to inform the investors about complexity of instruments, Acuité has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns,

number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk. For more details, please refer Rating Criteria “Complexity Level Of Financial Instruments” on www.acuite.in.
