Rating Rationale

Acuite has downgraded its long-term rating to '**ACUITE BB-**' (read as **ACUITE double B minus**) from '**ACUITE BB**' (read as **ACUITE double B**) and reaffirmed its short-term rating at **ACUITE A4+** (read as **ACUITE A four plus**) on the Rs. 80.00 crore bank facilities of Goa Sponge and Power Limited (GSPL) on account of information risk. The rating continues to be flagged as "Issuer Not-Cooperating" and is based on the best available information.

About the Company

Incorporated in September 1995, Goa Sponge and Power Limited (GSPL) is a Delhi based company promoted by Mr. Sumit Singla. The Company has a semi-integrated steel plant, engaged in the manufacturing of sponge iron & billets having an installed capacity of 90,000 metric tons per annum (mtpa) and 300 metric tons per day respectively. Manufacturing facility of the company is located in Sanguem, Goa. The company purchases imported coal through domestic traders as its raw material for manufacturing of sponge iron.

Unsupported Rating

Non-cooperation by the issuer/borrower:

Acuite has been requesting for data, information and undertakings from the rated entity for conducting surveillance & review of the rating. However, the issuer/borrower failed to submit such information before the due date. Acuite believes that information risk is a critical component in such ratings, and non-cooperation by the issuer along with unwillingness to provide information could be a sign of potential deterioration in its overall credit quality. This rating is, therefore, being flagged as "Issuer not-cooperating", in line with prevailing SEBI regulations and Acuite's policies.

Limitation regarding information availability

This rating is based on information available from sources other than the issuer / borrower (in the absence of information provided by the issuer / borrower) . Acuite endeavoured to

gather information about the entity/industry from the public domain. Any rating with the suffix 'Issuer not cooperating' is assigned without any management interaction with the issuer entity or any data / information from the entity. Sometimes this non co-operation by a rated entity may be due to a result of deterioration in the credit risk profile of the entity. Therefore, Acuite cautions lenders and investors regarding the use of such information, on which the indicative credit rating is based.

Note on complexity levels of the rated instrument

In order to inform the investors about complexity of instruments, Acuite has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk. For more details, please refer Rating Criteria "Complexity Level Of Financial Instruments" on www.acuite.in.
