

Press Release
INDIA BULLS HOUSING FINANCE LIMITED - RETAIL INNOVATION TRU
March 14, 2024
Rating Assigned

Product	Quantum (Rs. Cr)	Long Term Rating	Short Term Rating
Pass Through Certificates (PTCs)	171.81	ACUITE BBB+ SO Assigned Provisional To Final	-
Total Outstanding Quantum (Rs. Cr)	171.81	-	-

Rating Rationale

Acuite has assigned its long-term rating of '**ACUITE BBB+(SO)**' (read as **ACUITE triple B plus (Structured Obligation)**) to the Pass Through Certificates (PTCs) of Rs. 171.81 Cr. proposed to be issued by Retail Innovation TRUST (Trust) under a securitisation transaction originated by Indiabulls Housing Finance Ltd (IHFL) and Indiabulls Commercial Credit Ltd (ICCL) (The Originator). The PTCs are backed by a pool of secured housing and LAP loans with principal outstanding of Rs. 214.76 Cr.

The rating addresses the timely payment of interest and principal on monthly payment dates in accordance with the transaction documentation. The transaction is structured at par.

The rating is based on the strength of cash flows from the selected pool of contracts; the credit enhancement is available in the form of
 (i) Excess cash flow (excess interest and principal arising due to non-servicing of junior tranche) to the tune of 66.37% of the pool principal o/s

The rating of the PTCs is converted to final from provisional as following documents are received:

1. Trust Deed
2. Deed of Assignment
3. Servicer Agreement
4. Legal Opinion
5. Final Term Sheet

About the Originator

Jaganmohan Rao. The company has its registered office at Delhi.

Assessment of the Pool

IHFL group had Assets under management of Rs 63,569 Crs as on Sep 30, 2023. The current pool being securitised comprises 0.34 percent of the total AUM. The underlying pool in the current Pass Through Certificate (PTC) transaction comprises of housing and LAP loans extended towards 1129 individual borrowers and 46 commercial borrowers, with an average ticket size of Rs. 23.52 lakhs, minimum ticket size of Rs. 0.12 lakhs. and maximum of Rs. 22 Crore, indicating moderate granularity. The current average outstanding per borrower stands at Rs. 18.28 lakhs. The weighted average original tenure for pool is 387 months for Housing Loan and 311 months for LAP (minimum 22 months & maximum 572 months). The pool has weighted average seasoning of 75 months for Housing Loan and 81 months for LAP (minimum 10 months seasoning and maximum of 150 months seasoning). Hence, the pool has low seasoning. There is a delinquency of 12.9% in housing loan and 71% in LAP as of the cut-off date. The pool's geographical concentration is high. 28.84% of these borrowers are concentrated in Maharashtra. The top 5 borrowers of pool constitute 14.29% i.e. Rs. 30.69 Cr. of the pool principal O/s.

Credit Enhancements (CE)

(i) Excess cash flow (excess interest and principal arising due to non-servicing of junior tranche) to the tune of 66.37% of the pool principal o/s

Transaction Structure

The rating addresses the timely payment of interest and principal on monthly payment dates in accordance with the transaction documentation. The transaction is structured at par.

Legal Assessment

The legal opinion to the satisfaction of Acuité is received. The legal opinion cover, adherence to RBI guidelines, true sale, constitution of the trust, bankruptcy remoteness and other related aspects.

Key Risks

Counter Party Risks

The pool has an average ticket size of Rs. 23.52 lakhs, minimum ticket size of Rs. 0.12 lakhs. and maximum of Rs. 22 Crore. Considering the vulnerable credit profile of the borrowers, the risk of delinquencies/defaults are elevated. These risks of delinquencies are partly mitigated, considering the efficacy of the originator's origination and monitoring procedures.

Concentration Risks

The pool is moderately granular as underlying pool in the current Pass-Through Certificate (PTC) transaction comprises of Home Loans and Loan Against Property extended towards 1129 individual borrowers and 46 commercial borrowers. There is also a geographic concentration with 28.84% of these borrowers are concentrated in Maharashtra, which is partially mitigated as the pool is spread across various branches. The top 5 borrowers of pool constitute 14.29% i.e. Rs. 30.69 Cr. of the pool principal O/s.

Servicing Risks

The originator has a healthy track record of servicing PTCs since FY14. Hence, the risk of servicing remains partly mitigated.

Regulatory Risks

In the event of a regulatory stipulation impacting the bankruptcy remoteness of the structure, the payouts to the PTC holders may be impacted.

Prepayment Risks

The pool is subject to prepayment risks since rate of interest is significantly high and borrowers may be inclined to shift to low cost options (based on availability). Further, the asset class being housing loans, the risk of prepayment remains high. In case of significant prepayments, the PTC holders will be exposed to interest rate risks, since the cash flows from prepayment will

have to be deployed at lower interest rates.

Commingling Risk

The transaction is subject to commingling risk since there is a time gap between last collection date and transfer to payout account.

Rating Sensitivity

If the stress factor for the transaction is increased by 10 percent, the rating of the transaction would not get impacted.

All Covenants (Applicable only for CE & SO Ratings)

The following covenant is included in the transaction structure: On each Payout Date the amounts present in the collection and payment account by way of: Proceeds realised by the Trustee from the Receivables in the Collection Period immediately preceding the relevant Payout Date and deposited in the collection and payment account by the Servicer; Any amounts then available in the collection and payment account; and Amounts drawn, to the extent necessary, from the Credit Enhancement and transferred to the collection and payments account in accordance with the Transaction Documents, shall be utilized by the Trustee as per the waterfall mechanism.

All Assumptions

Acuité has arrived at a base case delinquency estimate basis its analysis of the company's historical static pool and further applied appropriate stress factors to the base loss figures to arrive at the final loss estimates. The loss estimate also consider the risk profile of the particular asset class, the borrower strata, economic risks, collection efficiency over the past several months as well as the credit quality of the originator. Acuité also has simulated the potential losses to an extent by applying sensitivity analysis.

Liquidity Position

Adequate

The liquidity position in the transaction is adequate. The PTC payouts is supported by an internal credit enhancement in the form of excess cash flow (excess interest and principal arising due to non-servicing of junior tranche) to the tune of 66.37% of the pool principal o/s.

Note on Complexity Levels of the Rated Instrument

In order to inform the investors about complexity of instruments, Acuite has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk. For more details, please refer Rating Criteria "Complexity Level Of Financial Instruments" on www.acuite.in.
