**Rating Rationale**

Acuite has reaffirmed its long-term rating of ‘**ACUITE BB+**’ (read as **ACUITE Double B plus**) on the Rs 25.00 Cr. Non-Convertible Debentures of Ecobox Industrials Asset III Private Limited. The Outlook is ‘**Stable**’.

Acuite has withdrawn its long-term rating on the Rs. 37.00 Cr. Non-Convertible Debentures of Ecobox Industrials Asset III Private Limited without assigning any rating as it is a proposed facility. The rating withdrawal is in accordance with Acuite’s policy on withdrawal of rating as applicable to the respective facility/instrument. The rating is being withdrawn on account of request received from the company.

**Rationale for Rating**

The rating factors in the strong parent support from Rava Partners which is a Singapore based fund house. Rava Partners has committed more than USD \$2 billion to real assets businesses spanning the warehousing, logistics, and supply chain sectors. Ecobox group of entities is one such warehousing venture of Rava Partners. However, execution risk of proposed acquisition constrains the rating.

Additionally, Acuite takes note of the change in acquisition plan of Ecobox Group. The Group earlier planned to acquire 3 operational industrial warehousing assets housed under 4 different existing SPVs from a seller. Under the revised plan, the Group shall acquire 2 operational industrial warehousing assets housed under 3 different existing SPVs from the seller. Accordingly, the revised acquisition cost has been factored in along with its impact on the financial profile and debt servicing ability of the group. The two warehousing assets are located at Pune, Maharashtra and Tirpuati, Andhra Pradesh. Given the proposed acquisition is currently at nascent stage, there remains high degree of funding/execution risk with respect to infusion of equity from the Ecobox Group and debt tie-up from the proposed lender. Further, Acuite believes that the timely completion of the proposed acquisition without any material change in the capital structure and committed equity and debt will be a key rating monitorable.
