Rating Rationale

Acuite has reaffirmed its long-term rating of ‘**ACUITE BBB**’ (read as **ACUITE Triple B**) on the Rs 851.00 crore bank facilities of Phoenix Tech Zone Private Limited (PTZPL). The outlook is ‘**Stable**’.

Acuite has assigned long-term rating of ‘**ACUITE BBB**’ (read as **ACUITE Triple B**) on the Rs.204.00 crore bank facilities of Phoenix Tech Zone Private Limited (PTZPL). The outlook is ‘**Stable**’.

Rating Reaffirmation

The rating reaffirmation reflects the experienced promoters and strong parentage of the company. Further, the rating factors in the reputed lessee profile consisting of big IT companies, and long-term lease agreements with ~ substantial occupancy which mitigates offtake risk and gives revenue visibility in near to medium terms. The rating also draws comfort from the project execution ability of the company reflected in the past projects and derives its strength from adequate cash flow position of the company. However, the rating is constrained due to the risk associated with timely renewal of lease agreements and exposure to inherent cyclicity in the real estate industry.

About the Company

Incorporated In 2014, Phoenix Tech Zone Private Limited (PTZPL), is engaged in the construction of IT/ITES SEZ, commercial projects in Hyderabad. The company is currently carrying out office space development under project Centaurus with leasable area of 2.14 million SFT out of which 0.50 million SFT belongs to landowners and remaining belongs to PTZPL. Other projects associated with PTZPL are Aquila and B-Hub which are already completed and generating cashflows in financial district, Hyderabad. The directors of the company are Mr. Gopi Krishna Patibanda and Mr. Jagadeesh Babu Ramanathan.

Analytical Approach

Acuite has considered standalone business and financial risk profile of PTZPL to arrive at rating.

Key Rating Drivers

Strengths

Strong parentage and established track record of operations

Phoenix Tech Zone Private Limited (PTZPL), incorporated in 2014 is engaged in the construction of IT/ITES SEZ, commercial projects in Hyderabad. The group specializes in the development of IT/ITES Special Economic Zones, retail malls, residential and commercial complexes, automobile dealerships, and educational infrastructure. The Phoenix Group has developed and delivered over 24 million SFT of mixed-use spaces and has over 24 million SFT.

of ongoing projects in various stages of development. Under PTZPL, the group is carrying out office space development under project Centaurus in financial district, Hyderabad. Centaurus has 3 basements + ground floor +

5 Stilts + 17 office floors with a total space of 2.14 million SFT under a Joint Development Agreements with landowners, Phoenix share is from Floor 1st -13th admeasuring 1.64 million SFT, while floors 14th– 17th belongs to landowner which the company has developed and successfully handed over to the landowners. Other projects associated with PTZPL are Aquila and B-hub which are successfully completed and are generating cashflows. Acuite believes the company will continue to benefit from its strong parentage, established track record of operations in the medium to long term.

Low execution & offtake risk

The project Centaurus has completed the construction with a total leasable area of ~2.14 million SFT. As per the JDA with the landowners they have successfully completed their obligation towards landowners. Out of the total leasable area, 1.64 million SFT belongs to PTZPL i.e., 1st-13th Office Floors. Out of the available vacant space the company has received Letter of Intent (LOI) for leasing out the entire remaining area from multiple clients which confirms occupancy level of around 100 percent, with rental being commenced for around 65 per cent. The company is an advance stage of discussion with certain parties for getting the lease commencement in near to medium terms.

Adequate cashflow position

Project Centaurus has a leasable area of 1.64 million SFT. The company has availed bank loan (LRD) for refinancing the loans availed for construction of project Centaurus. The debt service coverage ratio (DSCR) for this LRD loan is estimated to remain above unity over the tenure of the loan with an average DSCR of ~1.28 times. Acuite believes, the debt coverage would remain adequate for the medium to long term on account of steady cash flows from lease rolls.

Weaknesses

Lessee concentration risk

The lessee concentration risk is high with the top tenants occupying around ~50 per cent of the total leasable area. This also leads to higher risk on cash flow in case of delay in receiving rentals from key customers. Further, timely renewal of these lease agreements will remain as a key rating monitorable.

Exposure to inherent cyclicity in the real-estate industry

Being a cyclical industry, the real estate is highly dependent on macro-economic factors which make the company's sales vulnerable to any downturn in the real-estate demand and competition within the region from various established developers.

ESG Factors Relevant for Rating

- PTZPL's corporate governance philosophy is built on a legacy of fairness and transparency, aiming to enhance long-term shareholder value while upholding integrity and regulatory compliance.
- Phoenix Foundation, in collaboration with the Telangana Forest Department, is establishing a 500-acre eco-forest in Moinabad. This project aims to plant a variety of trees to attract wildlife and birds, serve as a carbon sink to reduce pollution, and include walkways for visitors to enjoy the natural environment.
- Misaal Hyderabad is a unique social welfare initiative that uses community art to enhance mental and physical health among slum dwellers. Through sanitation and cleanliness drives, it raises awareness about social improvement indicators. Key initiatives include art camps, balwadis and learning centres, and women empowerment & skill training camps. These efforts align with ESG criteria by addressing health, education, and gender equality, positively impacting the community and supporting sustainable development

Rating Sensitivities

- Timely renewal of existing lease agreements.
- Deterioration in cash flow position due to lower-than-expected rentals or higher than expected obligations towards debt repayment or operating expenses.

Liquidity Position

Adequate

The liquidity position of the company is marked adequate basis sufficient net cash accruals against repayment obligations. The average DSCR of this facility is ~1.28 times. Further the occupancy rate of the project is 100 per cent and with rental commencement of around 65 per cent, the company is estimated to generate significant

inflows and further support the liquidity.

Outlook: Stable

Note on complexity levels of the rated instrument

In order to inform the investors about complexity of instruments, Acuité has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuité's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk. For more details, please refer Rating Criteria "Complexity Level Of Financial Instruments" on www.acuite.in.
