Rating Rationale

Acuite has assigned the long term rating of '**ACUITE BBB+**' (read as **ACUITE triple B plus**) on the Rs.100.00 Crore bank facilities of Refyne Finance Private Limited. The outlook is '**Stable**'.

Rationale for Rating

The rating reflects the company's strong management profile, backing from marquee investors, healthy credit fundamentals with adequate capitalization (Rs 96 crore standalone as on March 2025 and Rs.234 Cr. standalone as on Sept 2025), a wide partner network of over 500 partners, and quasi secured product offerings. However, it is constrained by the low vintage of Refyne Finance, modest scale of operations and portfolio concentration towards few major clients.

- Full Consolidation

Rationale for Consolidation or Parent / Group / Govt. Support

Acuité has considered the consolidated business and financial risk profile of Refyne Tech Private Limited (RTPL), Associate of Refyne Finance Private Limited. This approach is in the view of the equity funds raised by the Refyne Tech Private Limited (through Refyne Holdings Inc) and subsequently down streamed to its operating Associate (RFPL). Acuité has further factored in the benefits arising from the structure while arriving at the final rating. This approach is also in view of common management besides financial and technology support from RTPL to RFPL.

Key Rating Drivers

Strength

Adequate capital position

The company has adequate capitalisation levels with a combined networth of Rs 583.90 Cr including Refyne Tech Private Limited and Refyne Finance Private Limited as of March 31, 2025. Refyne finance has a standalone net worth of Rs 96 Cr as of March 31, 2025. Refyne Finance Private Limited has been operational for a year which is for FY 25. The CAR for Refyne Finance Private Limited stood at 54.86 percent as of March 31, 2025. Refyne Finance Private Limited has a networth of Rs 233.27 Cr as of September 30, 2025. The company has reported a combined PAT of Rs.28 Cr for H1FY26.

Secured nature of the product

Refyne Finance has partnered with 500+ tier 1 corporate entities with a cumulative employee base of more than 60 lakhs . The company provides its offerings to the employees of their partner entities, through seamless integration with the HRMS platform of the aforementioned entities, hence the product is provided through a B-B-C model. Employees of the partner entities mostly access the services of Refyne through its app. The EWA and STU products are secured by the salary of the employees.

Weakness

Limited Resource Profile and modest scale of operation

The company has been operational for just over a year and currently operates on a relatively modest scale, reflected in its Assets Under Management (AUM) of approximately Rs700 crore as of September 30, 2025. Given its nascent stage, the resource profile remains limited, with operations yet to achieve significant diversification or scale compared to established players in the industry. The funding structure includes, Inter-Corporate Deposits (ICDs) extended by Refyne Tech, along with NCDs and term loan borrowings from a few Financial Institutions. Additionally, the company's ability to secure incremental funding at competitive rates will be a key monitorable as it scales operations. Going forward, the company's ability to diversify its portfolio across major clients and sectors will be a critical factor in reducing concentration risk and strengthening its overall credit profile. Additionally, the company's growth trajectory will depend on its ability to expand its resource base, diversify funding sources, and strengthen its

operational scale while maintaining prudent asset quality and profitability metrics.

Technology and regulatory risks

As technology forms the foundation of the FinTech business model, the company faces inherent risks related to data security, privacy, and system reliability. With all key operations—including data management, loan disbursement, and collections conducted digitally, any technological breach could result in cyber incidents and associated legal and financial liabilities. Additionally, the company operates in a dynamic regulatory environment, which adds further complexity and risk. Consequently, the group remains exposed to both technological vulnerabilities and regulatory challenges.

Rating Sensitivity

- Parent/investor support and timely infusion of capital
- Movement in disbursement levels and growth in AUM
- Movement in profitability and asset quality metrics
- Changes in regulatory environment.

Liquidity Position

Adequate

The liquidity position of Refyne Finance Private Limited remains adequate with no cumulative mismatches in the ALM as per March 31, 2025. The Cash and Cash equivalents stood at Rs 74.33 Cr as of March 31, 2025.

Note on complexity levels of the rated instrument

In order to inform the investors about complexity of instruments, Acuité has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk. For more details, please refer Rating Criteria "Complexity Level Of Financial Instruments" on www.acuite.in.
