*\* Refer Annexure for details*

### Rating Rationale

SMERA has reaffirmed the long term rating of '**SMERA BB**' (read as **SMERA double B**) and short term rating of '**SMERA A4+**' (read as **SMERA A four plus**) on the Rs. 10.32 cr. bank facilities of Parasnath Enterprises (PE). The outlook is '**Stable**'.

Parasnath Enterprises (PE), established in 1997, is a Delhi-based partnership firm. Mr. Ashok Kumar Jain, the key partner, has around three decades of experience in the rubber and plastic business. The firm is engaged into manufacturing of rubber component for automobile industry.

### Key rating drivers

#### Strengths

#### **Experienced promoters and second line of management**

The AIPE Group was incorporated in 1997 by first generation entrepreneurs led by Mr. Deepak Jain and Mr. Anand Jain who possess experience of more than two decades in the aforementioned line of business.

The partners are also engaged in other businesses including running a petrol pump, real estate (commercial and residential) and managing the day-to-day operations of the group.

#### **Increase in Profitability Margins**

The group's EBITDA margins improved from 6.98 per cent in FY2016 to 11.72 per cent in FY2017. Further group's PAT margin stood at 0.12 per cent as against a net loss of 1.55 per cent in FY2016 on account of high depreciation and interest cost due to capex on new land, plant and machinery.

#### **Moderate financial risk profile**

The Group has moderate financial risk profile marked by comfortable gearing and coverage indicators. The gearing stands at 0.84 times as on March 31, 2017 against 1.00 times as on March 31, 2016. SMERA has treated unsecured loans amounting to Rs. 14.53 cr as quasi equity. These loans have been extended by group firm, B.K. Developers. Moreover, the interest coverage

ratio stood moderate at 1.59 times in FY2016-17 against 1.33 times in FY2015-16. The networth of the group stands at Rs.22.07 cr in FY2016-17 as compared to Rs.15.85 cr in FY2015-16.

## Weaknesses

### Competitive and fragmented nature of industry

The Group operates in a highly competitive and fragmented rubber and plastic industry with limited entry barriers and large number of players in the unorganised sector. Performance is also susceptible to the tender based nature of activities and intense competition among players bidding for government contracts.

### Working capital intensive nature of business

The Group's working capital intensive operations are marked by high gross current asset days of 261 days in FY2017 as against 207 days in FY2016. This is on account of debtor of 127 days and 75 days in FY2017 and FY2016. Its inventory was 92 days in FY2017 as compared to 64 days in FY2016; and creditors at 111 days in FY2017 and 74 days in FY2016 respectively. SMERA believes the operations of the company will remain working capital intensive on account of its dealings with the government organisations (Railways, Oil Companies and Electricity Boards).

**Analytical approach:** While assigning the rating, SMERA has taken into account the consolidated operational and financial performance of Adinath Industries and Parasnath Enterprises, together referred to as the 'AIPE Group'. The consolidation is in view of the common customer base, management and similarity in the lines of business of both entities.

## Outlook – Stable

SMERA believes that the group will maintain a stable outlook over the medium term on account of its experienced management and moderate financial risk profile. The outlook may be revised to 'Positive' in case the group registers substantial growth in revenue and cash accruals while achieving efficient working capital management. Conversely, the outlook may be revised to 'Negative' in case of deterioration in the financial risk profile.

## About the group

The Delhi-based AIPE Group, incorporated in 1997 was promoted by Mr. Ashok Kumar Jain who possesses around three decades of experience in the rubber and plastic business.
