SMERA has assigned a rating of '**SMERA D' (read as SMERA D)** to the Rs.87.50 crore bank facilities of SDS Infratech Private Limited (SIPL). The rating primarily reflects the company's delays in servicing interest on debt obligations. The rating also reflects the company's high leverage.

SIPL, incorporated in 2008, is a Delhi-based real estate development company. SIPL's term loan statements reflect delays in servicing of interest during November 2013. The company's leverage is high at 7.27 times as on March 31, 2013.

SIPL faces intense competition from several players in the middle-income residential segment. The company is exposed to the current slowdown in the real estate sector.

SIPL's promoters have long-standing experience of around ten years in the real estate industry.
