

## Press Release

R. M. Knitters Private Limited

February 04, 2019

### Rating Reaffirmed and Withdrawn

<b>Total Bank Facilities Rated*</b>	Rs. 8.25 Cr. (reduced from 13.65 Cr.)
<b>Long Term Rating</b>	ACUITE BB/ Stable
<b>Short Term Rating</b>	ACUITE A4+

\* Refer Annexure for details

### Rating Rationale

Acuité has reaffirmed the long term rating of '**ACUITE BB**' (**read as ACUITE double B**) to the previously rated bank facility of Rs. 8.25 crore. Further, Acuité has withdrawn the long term rating of '**ACUITE BB**' (**read as ACUITE double B**) and short term rating of '**ACUITE A4+**' (**read as ACUITE A four plus**) to the bank facility of Rs.5.40 crore of R. M. Knitters Private Limited (RMPL). The outlook is '**Stable**'

RMPL, based at Mumbai, was incorporated in 2001 by Mr. Surendra Kumar Jiwrajka and Mr. Narendra Kumar Jiwrajka. The company is engaged in the production of texturised yarn and knitted fabrics. The registered office is located in Mumbai and the manufacturing facility is located at Dadra and Nagar Haveli with an installed capacity of 4,000 MTPA for knitted fabrics.

### Analytical Approach

Acuité has considered the standalone business and financial risk profiles of RMPL to arrive at the rating.

### Key Rating Drivers

#### Strengths

##### • Experienced management and established track record of operations

RMPL has been manufacturing texturised yarn and knitted fabric since 2001. The company has over a decade's presence in the industry and has well established market for its products. The promoters possess experience of two decades in the textile industry. The extensive experience of the promoters has helped the company to maintain longstanding relationships with its customers, dealers and suppliers. Acuité believes that RMPL will continue to benefit from its established position in the industry and experienced management.

##### • Moderate financial risk profile

The company has a moderate financial profile marked by net worth of Rs.13.60 crore as on 31 March, 2018 as against Rs.11.08 crore in the previous year. The net worth includes unsecured loans from promoters of Rs.4.88 crore in FY2018 as against Rs.2.46 crore in FY2017. The gearing (debt-equity) stood comfortable at 0.74 times as on 31 March, 2018 which has improved from 1.59 times as on 31 March, 2017. Interest Coverage Ratio stood 1.62 times in FY2018 and 1.76 times in FY2017. The total debt of Rs.10.07 crore as on 31 March, 2018 majorly comprises cash credit facility of Rs.8.22 crore, inter corporate loan of Rs.1.50 crore, current maturity of long term debt of Rs.0.24 crore and bank term loan of Rs.0.11 crore. The TOL/TNW stood at 1.19 times in FY2018 as compared to 1.90 times for FY2017. The debt service coverage ratio stood low at 0.96 times in FY2018 and 1.00 times in FY2017.

##### • Improved margins

The operating margins have improved to 6.34 percent in FY2018 as compared to 5.02 percent in FY2017 despite of decline in operating income to Rs. 39.13 crore in FY2018 from Rs. 46.65 crore in the previous year. The improvement is due to decline in raw material prices and addition of premium products in existing product profile. The PAT margins have also improved to 0.27 percent in FY2018 as compared to 0.17 percent in FY2017.

## Weaknesses

### • Working capital intensive nature of operations

The working capital intensive operations are marked by high Gross Current Asset (GCA) of 192 days in FY2018 as against 174 days in FY2017, due to elongated inventory days of 56 days in FY2018 from 28 days in FY2017. The utilisation of working capital limits has been around 96.37 per cent in last six months ending 31 December, 2018.

### • Susceptibility of profitability to volatility in raw material prices

The operating margins of the company depend on prices of raw material i.e. cotton which is highly volatile in nature. The prices of cotton depends upon factors including area under production, yield for the year, international demand supply scenario, export quota decided by government and inventory carry forward of last year which exposes the textile players to price volatility risk. Further, cotton being a seasonal crop is dependent upon the vagaries of monsoon.

### • Highly competitive and fragmented industry

RMPL operates in textile knitting industry which is highly fragmented. The Indian textile industry is highly competitive and is marked by the presence of large number of unorganised and organised players. Further, industry has low entry barriers increasing competition for players such as RMPL, thereby putting pressure on bargaining power with customers.

## Liquidity Position

RMPL has average liquidity profile marked by moderate net cash accruals to its maturing debt obligations. The firm had cash accruals of Rs.1.09 crore in FY2018 and Rs.1.20 crore in FY2017. The company's operations are moderately intensive as marked by gross current asset (GCA) of 192 days in FY2018 and 174 days in FY2017. This has led to more reliance on working capital borrowings, the cash credit limit remains utilised at ~96.37 percent during the last six months period ended December 2018. The current ratio stood modest at 1.46 times as on March 31, 2018. Acuité believes that the liquidity of the firm is likely to remain modest over the medium term on account of moderate cash accrual and no major repayments over the medium term.

## Outlook: Stable

Acuité believes that RKPL will continue to maintain 'Stable' outlook over the medium term from its promoters' industry experience. The outlook may be revised to 'Positive' if the company reports substantial increase in operating revenues while sustaining its margins and cash accruals. Conversely, the outlook may be revised to 'Negative' in case of any further stretch in its working capital cycle leading to deterioration of its financial risk profile and liquidity profile.

## About the Rated Entity - Key Financials

	Unit	FY18 (Actual)	FY17 (Actual)	FY16 (Actual)
